About me

With 2 years of experience in React, Vue, TypeScript, and CSS, I specialize in building high-quality web applications.

Before, I spent 6 years in the automotive industry as an Industrial Engineer, managing cross-functional teams and consistently delivered projects on time.

Professional Experience

Adhara Blockchain Technologies   October 2022 - currently

Frontend developer

Developing the UI of a banking management liquidity application. In addition, we maintain an internal Design System Library.

Minsait   Agost 2022 - October 2022
